

**A GREAT WARNING FROM THE DYNAMIC
POWER EARLY IN THE MORNING AROUND
3:00 AM ON THE 28TH OF MARCH 2016.**

*On Sunday night breaking morning, after we had finished battling and we were giving thanks to the Lord, I saw myself in a vision were I was in space; looking round seeing only stars... my eyes then focused on a small white Light. Looking at the small bright Light, it began to grow larger and larger and brighter and brighter until I could no longer bear the brightness of the Light. Whilst in the vision, I remembered that Major Prophet Massock had told us about the Light he saw in his dream so I quickly bowed my head... with my head down, I heard a Voice from the Light saying "I have made **the Last Straight Line**... the Last Straight Line which*

all of you know and that is why I have designed and made the Weapons the way they are right now... very; very sharp and more than the Word, fast, because if I allowed you people to go through this road with the former Weapons, none of you would have even reached half way that is why I am saying that no one should fall because no one has any reason to fall. I have fashioned the Weapons in such a manner that anyone who has only a thought with a sincere and clean mind about battling, the Weapons leave without you even knowing and battle for you and came back, so I'm saying no one has any right to fall because if you fall, the demons of this hour will not give you any chance to even think of rising up and even to repent; And I WON'T be there for anyone who falls except for those who fall and quickly rise up!!!
